DALY-WEST CO. REORGANIZES

Will Operate Hereafter Under Laws of Colorado.

MADE FINE RECORD LAST YEAR

DALY ANNUAL WAS HELD YES-TERDAY

THE usual large attendance was on h hand when the hour arrived for a holding the annual meeting of the Daly-West company yesterday afternoon and the keenest interest was manifested in the proceedings. While he rked attention and proved satisfac- th tory to the stockholders, the matter b tory to the stockholders, the matter that awakened the greatest interest and which, when fully explained, met with unanimous approval, was the introduction of a resolution guthorizing the sale of the property to a new corporation—the Daly-West Mining company of Colorado—the directors in which were stated to be Abram Hanauer, A. C. Ellis, ir., Henry McCornick, John A. Kirby and J. F. Allen, the new company being capitalized on precisely the same basis as the old, namely, 150,000 shares of the par value of 326 each, or \$3,000,000.

Barnett and W. H. Dickson, organized by electing the old officers and immediately transferred the company's chator kearns, who, he says, is a property to the new organization.

This action on the part of the Daly-West company simply means that it has been decided to get out from under the laws of Utah and work under a charter from another state. To that the transfer as sale of the many the transfer as sale of the many transfer as sale of the many transfer. charter from another state. To that nd the transfer or sale of the prop-rty to another organization was made as the easiest and quickest way to ac-complish it. Under the terms of transpany and eventuary the old company yes-officers chosen by the old company yes-terday will replace those to whom the terday will replace those to whom the transfer was made yesterlay. Then J. E. Bamberger will be president and general manager J. D. Wood, vice president; W. S. McCornick, treasurer, and Josiah Barnett, secretary; the other director being Judge W. H. Dickson

on.

The disadvantage of a mining corposition working under the laws of this ate is in the fact that any litigation to which it may be drawn has to be noteer state has the federal courts, while an ganization working under the laws of other state has the federal courts as esort. While the Daiy-West has no gation on its hands and does seet any, the means amounted to \$17,794.36, the major portion of which went into development work. One year ago the company's overdraft was \$10,825.41, while the baiance came from the sale of ore and cyanide products. Disbursements amounted to \$17,794.36, the major portion of which went into development work. One year ago the company's overdraft was \$10,825.41, while the laws of this work and the laws of the state courts, while an ganization working under the laws of the state courts, while an ganization working under the laws of this court of the state of the state courts are second.

Sometiments amounted to \$17,794.36, the major portion of which went into development work. One year ago the company's overdraft was \$10,825.41, while the laws of this court of the state courts are second.

Sometiments amounted to \$17,794.36, the major portion of which went into development work. One year ago the company's overdraft was \$10,825.41, while the laws of the state courts, while an ganization working under the laws of the state courts, while an ganization working under the laws of the state courts are second. state is in the fact that any litigation into which it may be drawn has to be contested in the state courts, while an organization vorking under the laws of another state has the federal courts as a resort. While the Daiy-West has no ditigation on its hands and does not expect any, the management has been working for a year past to make the chaigs which has just occurred in order that it could take advantage of the higher courts should anything happen in the future to recessitate it.

Manager Bamberger said the report had been circulated that the action was taken in view of alleged threatened ditigation between the Quincy and Daly-West, and that he wished to specifically deny.

"A join survey is now being made of the terd tory of the two companies," and he, "and as both sides have significantly and the wilks guess to do everything sable to avoid litigation in the future. I have no reason to fought that an amicable adjustment of any differences that might arise will be speedify made when the work now under way is completed."

Coming down to the business end of the annual meeting, a most gratifying exhibit is laid before the shrreholder. On Jan. 1, 1901, the amount of cease on hand was sisses, and the order of the fact that \$505,500 was paid in the treasury at the end of the year was \$271,143.21, an increase in the reserve of \$81,317.94, and that in the face of the fact that \$505,500 was paid in the dividends, as against \$187,500 the year previous.

During the year 18,418 tons of crude or 12,962 tons of concentrates and 752 per cent of the lead and 70.2 per cent of the le

tendent Rood says the country is a large one to prospect in, and while results may never be attained, the chances are worth taking.

The total receipts of the company for the fiscal year were \$37,152,13. From royalties through the use of drain tunnel No. I, by the Daly-West and Outario companies \$5,280,10 was received; from rent of the Marsac mill, etc., \$4,460,51, and from the sale of supplies, etc., on mine account, \$5,003,30. For \$50 shares of Alliance stock \$416 was received, while for the use of water by the Wabash company during November and December \$1,000 was turned into the treasury.

Dividends on drain tunnel and power house account amounted to \$229.68, while for a lot cut out of the Marsac mill walter or a lot cut out of the Marsac mill sales was received. The Dewley Ben Butler. Walter Refinery coraphyry, to settle accounts, turned in its plant at \$8.108.25. Centary Lut as the same appears in the fils-

WILL MOVE ITS SMELTER.

Grant Snyder Says Plant Will Go Ten Miles Nearer the Mine.

Grant Snyder, manager of the Utah Eastern company's Dixie copper bo-anza below St. George, returned from three weeks' trip to New York, (ashington and other eastern points ashington and other eastern points
may night. During his trip he went
New Haven, Conn. and attended the
must meeting of the company that
serves as local numager. He rems with the information that, while
new board of directors had not
in completely organized when he
t, he was given the assurance that
recommendations touching future
rations would surely be ordered put
i effect.

n effect.

Innager Snyder says it has been initely determined to move the smelon to a more advantageous site, bebly to some point on the Virgin er, at least ten railes nearer the while other matters of business out are to receive early attention. While in New York with officials of company arrangements were made

nual Was Postponed. A quorum of the stockholders in the Northern Light company failed to mabrialize yesterday afternoon and the scheduled annual meeting was not held in consequence. Consulting Engineer Legg's report, with accompanying diagrams of the workings, was ready for submission, as was also the financial exhibit of Secretary Airis. The latter showed receipts of \$22,082.74 during the year, \$15.761 of which was derived from assessments. Nos. 5, 6 and 7, while the balance came from the sale of ore and cyanide products. Disburseorum of the stockholders in the

SUGAR AND THE COPPER STOCKS

Market.

BROKERS FEAR THE STORM

SNOW KEPT MANY AWAY FROM THE STREET.

remained about as unfixed as since its promulgation.

Sugar advanced on account of the rise in the price of refined sugar and the continued hope that the duty on Cuban sugars would be remitted by congress.

The urgent buying of raw copper in London and the sharp advance in the price resulted in buying of Amalgamated Copper here. There was some movement in the stocks of different steet companies, apparently in connection with the annual meeting of the United States Steel corporation, but the movement of the stocks themselves was narrow and dealings were not on a very large scale, considering the enormous volume of the capital. The railroad list, outside of some minor stocks.

Bonds were steady. Total sales, par value, \$3,470,000. United States bonds were all unchanged on the last call.

all unchanged on the last call.

New York, Feb. 17.—The CommercialAdvertiser's London cablegram: The
stock market had a firm opening today,
but later weakened with Kaffirs. Two
big speculators are being squeezed. The
continent also sold, attaching undue importance to the smail Boer successes and
the fresh Boer mission to the United
States. The Rhodesians were exceptionally strong, the copper discoveries being
boomed. Next week Rhodes will issue the
prospectus of his South African copper
trust. It will be a £2.500,000 corporation
and will be backed by the Rothschilds,
Wernher, Beit & Lewisohn and Morton.
Consols were duil.

GRAIN AND PROVISIONS.

Chicago. Feb. 17.—There was a little wave of bull feeling at the opening in wheat. Cables were firm and world's statistics were bullish. There was some fair buying by commission houses early and the bullish sentiment carried over from Saturday with advances in corn and oats, helped prices upwards. May opened 126 to higher to a shade lower, at 75% to 75%, and speedily advanced to 79. Almost every bit of available news was bullish. There was a French cable claiming probable injury to the wheat crop from the hard winter: world's shipments fell off nearly 2000.000 bushels from weekly requirements and the visible supply fell off 1,150,000 bushels. Dullness in trading, however, and the fact that the outsiders were not in the market worked against prices. When 79c was reached for May, commission houses and other grains prices. When 79c was reached for May, commission houses soid, and other grains lost early gains. The bears who had been short early and who had covered took courage and soid short again, though not to a great extent. May slid off to 7846/784 and closed weak, %6/2c down, at 7844.

Corn had a good up-turn early, but prices did not hold when late selling set in. May closed weak, %6/4c lower, at 61%.

sequence was a dull and uninteresting feet of no fixed tendency. Only a stocks showed dealings of any importance and the price movement in these as inclined to vary. A number of usually inactive stocks made some progress appared. The undertone was firm, and while prices did not hold always at the best, the level of prices did not hold always at the best, the level of prices did not hold always at the best, the level of prices did not hold always at the best, the level of prices did not hold always at the best, the level of prices did not hold always at the best, the level of prices did not hold always at the best, the level of prices did not hold when late selling or commission house buying. There seems to be a tense feeling over the concentrated May situation. Shorts were very uneasy and covered. When wheat and corn turned bearish, this pit lost much of its early gain. May closed firm, and corn turned bearish, this pit lost much of its early gain. May closed firm, and corn turned bearish, this pit lost much of its early gain. A Thousand Dollars Thrown Away. Mr. W. W. Baker of Plainview, Neb. Mr. W. W. Baker of Plainview, Neb., writes: "My wife had lung trouble for over fifteen years. We tried a number of doctors and spent over a thousand dollars without any relief. She was very low and I lost all hope, when a friend suggested trying Foley's Honey and Tar, which I did; and thanks be to this great remedy, it saved her life. She is stronger and enjoye better health than she has even known in ten years. We shall never be without Foley's Honey and Tar, and would ask those afflicted to try it." Johnson, Pratt & Co.

CRITICISES THE KAISER FOR CONDONING DUELS

Berlin, Feb. 17 .- During the discus Berlin, Feb. 17.—During the discussion today in the reichstag of the military budget, Herr Lenzmann, radical, moved that measures be taken to eliminate duelists from the German army. Herr Lenzmann said he thought that Emperor William used his power of pardoning duelists among officers too freely, thus rendering the penalties attached to dueling illusory.

After various members of the reichstag had assailed the theory that honor

tag had assailed the theory that honor required dueling, General von Gossler the minister of war, said that duels it the army were diminishing, now aver-

THE PRESS CENSOR IS BUSY.

Trial of Another Boer Leader is Taking Place.

ing Place.

London, Feb. 17.—The press censor in South Africa is evidently active, as the first intimation that the trial of Commandant Kritzinger (who was captured by General French in December last) had commenced came from the war secretary. Mr. Broderick, in the house of commons this afternoon. The secretary did not volunteer any details, but he informed a questioner that Lord Kitchener would certainly see that the Boer general had every facility for producing witnesses. It developed during Mr. Broderick's answer that the trial began Feb. 15.

Are you nervous, run down, weak

Are you nervous, run down, weak and dispirited? Take a few doses of HERBINE. It will infuse new energy, new life into the exhausted nerves, the overworked brain or muscular system, and put a new face on life and business. Price 50 cents. Z. C. M. I.
